## KITTING – PICK & PACK – FULFILLMENT

Efficiencies tidily packaged by Bullseye

Bullseye has successfully assembled, loaded, stickered, and kitted product since 2008.

We want to hear what your vision is and help you grow; we partner with you to achieve your goals. When you trust your pick and pack or fulfillment to us we follow our careful processes to provide you with the highest quality service.

Since we have dedicated a lot of time and attention to our co-packing processes, our production line efficiencies are second to none. We focus our efforts on a high level of quality and accurate detail.

If you're not sure about whether Bullseye is the right fit for your fulfillment project, here are some scenarios to stoke your imagination.

## E-COMMERCE FULFILLMENT

You are a business owner selling an awesome shelf-stable food product. So awesome, in fact, that while you have plenty of stock, shoppers' orders are piling up through your e-commerce site and you can not keep up on getting the orders shipped out. You need help!

You turn to Bullseye. We will process your custom e-commerce orders for courier pick up on a timely basis. We are licensed to handle shelf-stable packaged food and beverage and follow GMP guidelines. We can also fulfill a variety of consumer goods, health and beauty products and household goods.

## CONFERENCES + TRADESHOWS

Your Annual General Conference is coming up and your company has decided to hold it as a virtual event. However, just because it is not being attended physically doesn't mean management wants attendees' experience to be any less.

The ball is in your court to make the virtual experience as good as -- if not better than -- attending in person. (Afterall, this could be a benchmark for all future AGMs!) There is no way you have time to both plan the event and carry out the individual conference packages you have in mind to blow them away.

We will assemble your experience team kits by forming your supplied boxes, filling them with your "experience goodies", and work with you to get them all shipped out to their individual locations. Prepackaged snacks,

branded notebooks and pens, team t-shirts... what do you want to include in your package to fire up your team? (Did you know that Bullseye has a Promotional Products affiliate to help you streamline this process? Ask us about it!)

## REMOTE DISTRIBUTION

Importers: how do you facilitate cross-docking and Canadian distribution? Once your product is received into Canada, ship your goods to Bullseye. We will efficiently confirm product against the packing list and re-palletize to your specifications to ship to your national distribution centre orders.

If your product or cartons need new labels to meet Canadian regulations, send the labels over and have us apply them neatly as needed.

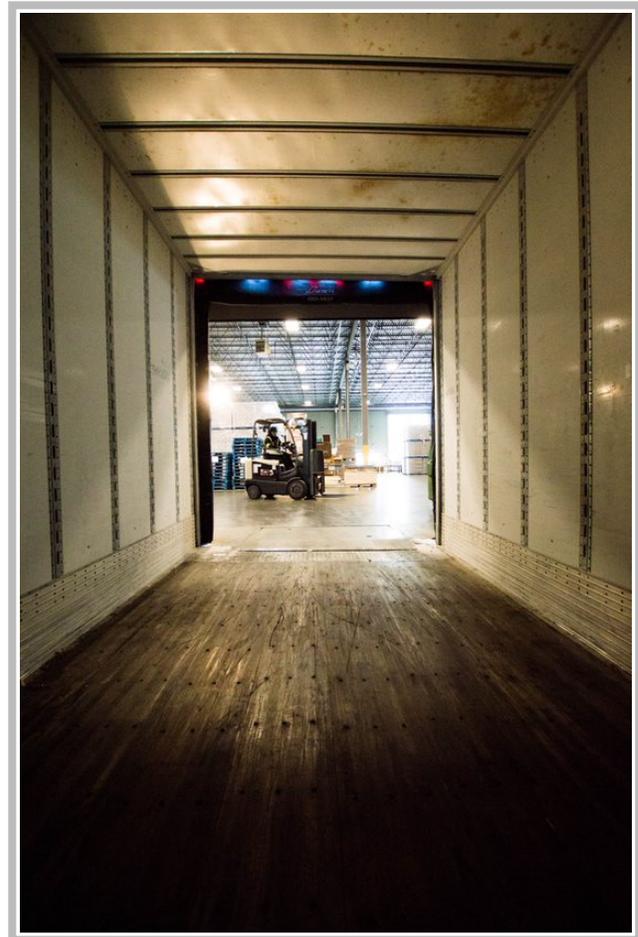

## WHAT'S COMING UP FOR YOU?

These are only three scenarios in which Bullseye can be your go-to for ongoing kitting, pick and pack and fulfillment.

What's coming up for you in the next quarter or later in the year? Contact us now to start planning your pick and pack/kitting/fulfillment projects!
